
Dr. Randy Frank

Executive Director, R&D, Quality and Regulatory Affairs 3M Canada Company

3M has long been known as one of the world's most innovative companies. This well-deserved reputation comes as a result of a long standing corporate culture that encourages creativity and risk-taking while still maintaining a focus on commercial success.

Randy Frank currently leads 3M Canada's technical organization including Research & Development, Product Engineering, Application Development, Quality, and Regulatory Affairs. Randy has spent much of his career at 3M leading new product development programs in a wide variety of industries including Oil & Gas, Telecommunications, Electrical Utilities, Mining, and Automotive.

Randy obtained his Ph.D. in Polymer Science from McMaster University. He holds undergraduate and Master's degrees from the University of Waterloo. He is vice-chair of the board for Let's Talk Science, a national, non-profit STEM education and outreach organization, an advisory council member of the Conference Board of Canada's Council for Innovation and Commercialization and a member of Western University's Faculty of Engineering Advisory Council.
